MASEEHA AZIZ

GRADUATE COMPUTER SCIENCE CANDIDATE

[Durban, South Africa] • [072-737-7862] • [azizmaseeha717@gmail.com]

PROFESSIONAL PROFILE

Final-year Bachelor of Computer Science in Application Development student at Emeris, expecting to complete studies in November 2026. Academic background includes information systems, systems analysis and design, network engineering, cloud development, information security and project management. Contributed to academic projects involving an enterprise management system, a freelance marketplace, a campus mobile application and an Internet of Things (IoT) ecosystem. Seeking a graduate or entry-level opportunity in business systems, IT project coordination, technology consulting or information systems, with a preference for business-facing technology roles rather than coding-focused work.

EDUCATION

Bachelor of Computer Science in Application Development
Emeris, South Africa | Expected completion: November 2026

RELEVANT COURSEWORK

Information Systems • System Analysis and Design • Project Management • Network Engineering • Principles of Security • Security • Cloud Development • IT Professional Practice • Introduction to Research for ICT • Mobile Application • Programming Logic and Design • Programming • Mathematical Principles for Computer Science

TECHNICAL KNOWLEDGE
